Conclusion

The present claims 25-38 in this reissue application are directed to subject matter drawn to an invention patentably distinct from the invention claimed in patent 6,148,925. Claims 25-38 are directed to a conductive line. Claims in patent 6,148,925 are directed to a method of inserting at least one conductor into an elongated length of metal coiled tubing, and these claims have been canceled in the present reissue application.

Since the claims in the reissue are to subject matter drawn to an invention patentably distinct from the invention claimed in the patent, 37 CFR 1.176 now permits the Examiner to make a requirement for restriction, but a restriction requirement cannot be provide since added claims 25-38 are constructively non-elected and withdrawn from consideration and original patent claims have been canceled in the present reissue application.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Adolfo Nino whose telephone number is (571) 272-1981. The examiner can normally be reached on M-F (7:30-5:00).
